

Pressure Regulator Cushion Spring

Part No.

95200-01

NOTE: Fits Type 1 or Type 2 valve bodies.

Saturn TAAT

1. Disassembly

- Remove OE boost retainer, boost sleeve and plunger assembly, spring guide, pressure regulator spring, the broken orange cushion spring pieces, and pressure regulator valve.
- Discard OE broken spring and keep other parts for reuse.

2. Installation & Assembly

- Be certain all debris has been removed from the valve bore and valve body.
- Reassemble and install valve bore line up using Sonnax cushion spring.
