

O-Ringed End Plug Kit

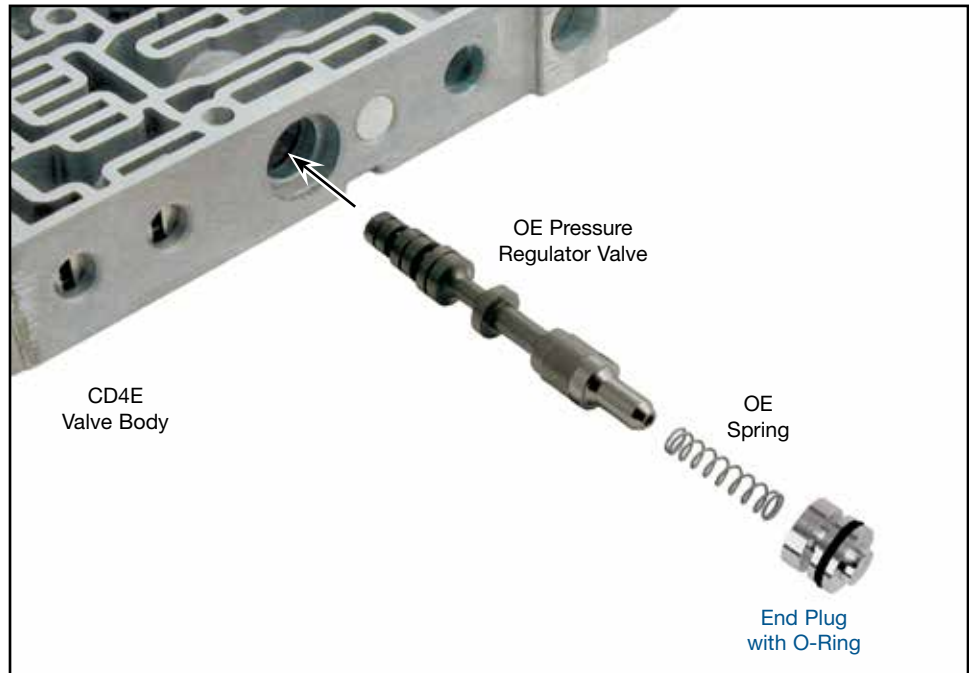

Part No.

73840-06

- End Plug
- O-Ring

NOTE: Can be used with OE pressure regulator valve or with Sonnax oversized pressure regulator valve **73840-RK**.

Ford CD4E; Mazda LA4A-EL

1. Disassembly

- Remove OE retainer and save for reuse.
- Remove and discard OE end plug.

2. Installation & Assembly

- Lubricate Sonnax O-ring and install into shallow groove on Sonnax end plug that is closest to nub (**Figure 1**).
- Roll O-ringed end plug on clean flat surface to size O-ring into groove.
- Install Sonnax end plug into pressure regulator bore with nub facing outward.
- Secure with OE retainer.
