

6-Bolt Adapter Flange Yoke Kit

Part No.

T33-ALFY-04

- Flange Yoke
- Bolts (6)
- Washers (6)

NOTE: Fits Ford Mustang with 95mm bolt circle dia. pinion flange (Automatic 2005–2014; Manual 2005–2019).

Instructions

NOTE: After removal of driveshaft, ensure mating surface and bolt holes are free of any contamination, including removing old Loctite[®] from all surfaces.

1. Install new driveshaft with Sonnax flange yoke attached, ensuring yoke is fully seated in the pinion flange cup before starting bolts.
2. Apply blue Loctite[®] to bolt threads, then install Sonnax bolts and washers in a star pattern. Torque to 41 ft-lbs (55Nm).
