

Pinion Yoke

Part No.

T9-28-1330FD

- Yoke
- Spacer

NOTE: Fits all 9" Ford 28-spline differentials. Uses 1330 U-joint. For 1350 U-joint, use **T9-28-1350FD**.

Carrier Bearing Identification & Spacer Use

- NOTE:** The included Sonnax spacer is used only in standard (small) bearing carriers. If you have a big bearing OE, or a Daytona carrier, do not use Sonnax spacer (**Figures 1-3**).
- NOTE:** When using Sonnax spacer, always install behind the pinion nut (like a washer) (**Figure 2**). This spacer is NOT intended to be installed between the yoke and bearing.

Figure 1

	Bearing Width*	Pinion Bearing O.D.	Use Sonnax Spacer
Standard Carrier	2.2"	2.675"	Yes
Big Bearing Carrier/Daytona	2.5"	3"	No

*Bearing width is the width between outer bearing faces when installed in the carrier.
