

## K2 Clutch Backing Plate Kit

### Part No.

**99582-02K**

- Backing Plate .170" Thick
- Retaining Ring .062" Thick

## Aisin Seiki AS68RC

**NOTE:** Typical clearance with OE parts is .010-.014" per friction plate.

1. Machine OE piston as required to achieve desired clutch stack up and clearance.
2. If additional clearance is needed, replace retaining ring with thinner retaining ring included in kit.
