

722.6 MERCEDES (300E 2.9 L 6 CYL 113,000 MILES)

NORMAL

Notes: Top is raw frequency data read at the 500 Hz range setting. This captured momentary fluctuation is flow during valve activity. Chart below is how that would appear on SonnafFlow LED readout alone.

722.6 MERCEDES ('95 S-320)

NORMAL
